EDUCATION

University of Texas at Dallas
B.S. in Computer Science

Dallas, TX
Expected Dec. 2026

EXPERIENCE

Software Engineering Intern | CBRE

June 2026 – August 2026

- **Platform Engineering:** Customized ServiceNow LSD workflows using JavaScript (GlideRecord, GlideAjax), Client Scripts, UI Policies, Business Rules, and Script Includes to automate legal request routing.
- **GenAI / AI Platform:** Built an AI Legal Request Classifier using Now Assist and Flow Designer to automatically categorize intake requests and route tickets ($\geq 80\%$ confidence) to specialized legal teams.
- **Automated Testing (ATF):** Developed ATF regression test suites for Ambassador Nominations and Securities Preclearance, automating form validation, user impersonations, and UI actions.
- **Workspace Customization:** Built Declarative Actions and Script Includes in Legal Counsel Center Workspace, enabling users to create and link REQ/RITMs directly from Legal Requests.
- **Integrations & Support:** Diagnosed API payloads (REST/JSON) for Agiloft CLM and LexisNexis KYC integrations, writing technical Knowledge Base diagnostic guides for L1.5 support teams.
- **Compliance Testing:** Executed end-to-end acceptance testing (AC1–AC8) for Securities Preclearance and Conflict of Interest modules, validating dynamic forms, blackout logic, and email notifications.

LEADERSHIP & RESEARCH

EPICS Project Lead | University of Texas at Dallas

Jan 2025 – Present

- **Full-Stack EHR Platform (Hope. Cope. Heal.):** Architected a practice management system using Nuxt, Prisma, and SQLite with multi-role authentication for clinical intake compliance.
- **Optimization & AI Integration (Wellness Center):** Reduced database query time by 25% (40ms) via SQLite/Prisma migration and boosted active sessions by 35% by integrating Google Maps API and an AI chatbot.
- **Agile Leadership:** Led cross-functional student engineering teams through Agile sprints, reducing average deliverable completion time by 20%.

Undergraduate Research Assistant | DE4M Lab, UT Dallas

Oct 2025 – Present

- **Full-Stack HCI Repository:** Built a searchable web platform with a CMS backend using modern JavaScript tools and consolidated academic papers to accelerate research retrieval for the Makingverse initiative.

AWARDS & PROJECTS

SignalSafe AI | Lead Developer & Inventor

Recent

- Authored and filed a U.S. Provisional Patent (64/132,977) for a hardware-free turn-signal compliance and driver safety platform using edge sensor fusion and spatial map-matching.
- Engineered mobile algorithms combining accelerometer, gyroscope, and GPS telemetry streams to execute real-time driver nudging without external vehicle hardware.

Project Carestone | UX Researcher (UT Dallas UX Club Design-A-Thon)

Nov 2025

- Earned 2nd Place out of participating teams by conducting stakeholder interviews and competitive analysis to design an accessible community support mobile app layout.

CERTIFICATIONS & TECHNICAL SKILLS

Certifications: Salesforce Certified AI Specialist & AI Associate | Python PCAP & PCEP | Cisco CCST | IT Specialist Cybersecurity
Languages & Web: Python, JavaScript, TypeScript, SQL, HTML/CSS, React, React Native, Next.js, Nuxt, Node.js, Vite, Tailwind CSS

Tools & Databases: ServiceNow (LSD, Flow Designer, ATF, Now Assist, Workspace, GlideRecord/GlideAjax), Prisma, PostgreSQL, SQLite, Firebase, Supabase

Languages: Fluent Telugu, Conversational Spanish
